

Karaoke

Digital Jam specializes in karaoke shows. You can contact us for stand alone shows (karaoke only) or add it to any event to attract more attention and pizzaz.

Your guests can enjoy our ever growing karaoke library with hits from all the great decades of music plus many songs not found in most karaoke libraries.

Digital Jam will host either the karaoke stand alone show or it can be chosen as an addition to a dance show. Contact Digital Jam today for more information on prices and availability.

Bars & Nightclubs can take advantage of multiple show discounts. Build your patronage by adding Karaoke Nights!

Call Digital Jam for a specific flyer for bars and nightclub karaoke!

Youth & Family Dances

Digital Jam specializes in youth dances. Our owner and headline Disc Jockey

himself works with youth and knows how scary it can be to hire entertainment for

your program. Digital Jam has age and religious specific music for just this reason. We can play only music you allow or more importantly we will not play music that you deem inappropriate. Of course all of this will be discussed prior to your event and we guarantee you will feel confident and comfortable with our services.

We know how to get the youth on the dance floor and having fun. We can lead fun games and give away prizes as well. Your satisfaction is guaranteed! Try adding karaoke to your youth dance... or we can host a stand alone karaoke show for your young people.

Contact Digital Jam for more information on youth and family oriented dances and karaoke shows today!
